Net patient service revenue is summarized below:

	Year Ended June 30		
	2009 2008		
Patient service charges	\$ 27,451,838	\$ 24,989,136	
Less charges related to charity care	(9,825,831)	(8,823,890)	
Less other contractual jaustments and deductions	(11,751,010)	(10,765,403)	
Net patient service revenue	\$ 5,874,997	\$ 5,399,843	

Consistent with its goal of providing medical care to the sick, reglaxeds of their ability to pay for services, MMA provides patient can without charge or at amounteess than established rates. Certain of these amounts are pursued for collectinough the efforts of internal and external business office personnel. Collections on sudfi-passy balances represented approximately \$291,235 and \$263,000 for the years ended June 30, 2009 and 2008, respectively. Amounts not expected to be collected from fispeay accounts are classified asacilty care and nto reflected in net patient service revenue.

Periodically, management assestives collectability of self-payaccounts based upon historical collection experience. The results to fs review are then used toake any modifications to the amount recorded as charity care to establish payarte self-pay accounts receivable balances.

Laws and regulations governithlige Medicare and Medicaid organs are complex and subject to interpretation. As a relapthere is at least a areonable possibility thatecorded estimates will change by a material amount in the near term. MMA believes that it is in compliance with all applicable laws and regulations and is not aswafr any pending or thatened investigations involving allegations of potential wrongdoing thatould have a material effect on the consolidated financial statements. Compliance writish laws and regulatis can be subject to future government review and interpretationwas! as significant regatory action including fines, penalties, and exclusion from Medicare and Medicaid programs.

Accounting Pronouncements

In August 2008, the FASB issued Staff Position No. 11 Endowments of Not-for-Profit Organizations: Net Asset Classification of Furbals bject to an Enacted Version of the Uniform Prudent Management of Institutional Fundst, Asand Enhanced Disclosures for All Endowment Funds which, among other things, provides guide aron the net asset as if it as enacted version of the Uniform Prudent Management of stitutional Funds Act of 2006 (UPMIFA) and additional disclosures about augranization's endowment fund as ffective July 1, 2008, the State of Georgia adopted UPMIFA he School reflected the change as of the beginning of fiscal year 2009 as a cumulative et extraction of activities changes in net asset sequired disclosures are included in Note 6.

In September 2006, the FASB issued Statemonen Financial Accounting Standards (SFAS) No. 157, Fair Value Measurement (SFAS No. 157), which defines fair value, establishes a framework for measuring fair value in accordance generally accepteaccounting principles (GAAP) and expands disclosuresbout fair value measurements. The changes to previous practice resulting from the applition of SFAS No. 157 relate to the finition of fair value, the methods used to measure fair value, athet expanded disclosures about fair value measurements. The definition of fair value inestathe exchange price notion used in earlier definitions of fair value. SFAS No. 157 clarifiesath exchange price is the price in an orderly transaction between market participants to sellatized or transfer the liability in the market in which the reporting entity would transact for theset or liability, that is, the principal or most advantageous market for the asset or liabilitye Tilansaction to sell the asset or transfer the liability is a hypothetical ransaction at the measurement date, sidered from the perspective of a market participant that holds the assetownes the liability. SFAS No. 157 provides a consistent definition of fair value which doses over entity-specific inputs. In addition, SFAS No. 157 provides a framewofor measuring fair valueand establishes a three-level hierarchy for fair value measurents based uarchy for fail.anti5.7(m)]Tn-1920.6 -19]Tn-1920.6 -19]Tn-

3. Fair Value Measurements (continued)

- Quoted prices for identical or similarsets in markets that are not active;
- Observable inputs other than quoterides for the asset or liability;
- Inputs derived principally from, or comborated by, observable market data by correlation or by other means.

Level 3: Unobservable inputs for the asset drillitay. Unobservable inputs should be used to measure the fair value to the extensittabservable inputs are not available.

Observable inputs reflect the assumptions mappled cipants would use ipricing the asset or liability developed from sources independent the reporting entity and unobservable inputs reflect the reporting entity's onwassumptions about the assumption market participants would use in pricing the asset or liability developled on the best information available in the circumstances.

The School's adoption of SFASoN 157 did not have a materiant pact on its consolidated financial statements. The School has segregalterichancial assets that are measured at fair value on a recurring basis (at least annually) intentions appropriate level within the fair value hierarchy based on the inputs used to determine the fair value at the measurement date in the table below.

The carrying amounts of cash and cash equivalent counts receivable ther receivables and accounts payable and accrued expenses approximitate due to the relative terms and short maturity of these financial instruments. There investments which approximate fair value, of these investments are based upon quoted market prices of similar instruments.

A reasonable estimate of the fair value of the loans receivable from students under government loan programs and advances from Federalegroment for student loans could not be made because the loans receivable are not salableamonly be assigned to the U.S. Government or its designees.

The carrying amount of the bonds and note pabe approximates fair value since these financial instruments bear interest at variable rates which approximate current market rates for notes with similar maturities and credit quality.

<u>Contex</u> t	3 of the 12 reports teesd were not submitted timely.
<u>Effect</u>	The School is out of compliance with such requirements.

Morehouse School of Medine, Inc. and Affiliate

Schedule of Findings and **@st**ioned Costs (continued)

Part III—Federal Award Findings and Questioned Costs Section (continued)

Cause

The School submitted the SSCRs relating to their FFEL program in an untimely fashion due to an oversight by the Registrar's office.

Recommendation

Per the Compliance Supplement, an additional 30 day allowance applies if the School expects to submit its entire roster file within the next 60 days. As such, we recommend that management implement a process to submit its entire student roster on a bi-monthly basis.

<u>Views of responsible fficials and planned corrective actions</u>

Conclusion

The School agrees that status change updates should be made more timely. As such, the Registrar's office will begin updating their entire roster file every 60 days. In addition, as updates are made, online confirmations from the NSLDS website will be printed out and retained in the School's files.

Cause

For the first borrower, the School did not attempt to pursue collection on the loan due to the borrower declaring bankruptcy. For the second borrower, documentation was not available to show the collection procedures due to oversight by staff in charge of Perkins administration.

Recommendation

As student loans are typally not discharged in bankruptcy, we recommend that the School continue to perform the proper collection procedures as outlined in the Compliance Supplement. In addition, we recommend that the School implement procedures to ensure the safeguarding of records relating to Perkins collections.
